

Your invitation to join....

for School Boards & Staff Development

Dear Superintendent, Board of Education President & Business Official:

The time has come to renew your district's membership in (or become a first time member of) the Upstate Institute. We provide professional development opportunities to the following school district personnel:

- ◆ Members of the buildings and grounds departments;
- ◆ School safety & security personnel;
- ◆ Para-educators in school classrooms;
- ◆ Educational Administrative Professionals and
- ◆ Food service employees in the Wayne-Finger Lakes & Genesee Valley regions

These participants come from over 55 school districts in our upstate region. While districts are eligible for BOCES aid, many districts take advantage of the discounted event registration fee for additional savings!!

I sincerely hope you'll consider a membership for the coming school year. Now more than ever, support staff are critical to school success and need training and the opportunity to share their experience with peers as we continue to adapt to the new normal brought about by the pandemic.

Visit the website upstateinstitute.org to see who were members in 2020-2021

Please Join For 2021-22
